

*For immediate release*

Australian autopilot manufacturer Coursemaster Autopilots is pleased to announce the appointment of Globe Electronics SAS to distribute their range of leisure and commercial marine autopilots throughout France with immediate effect.

Globe Electronics SAS France is an experienced distributor of other well known marine electronics brands including FLIR Thermal Imaging Cameras, Comar AIS, Suunto compasses, VDS LCD monitors, and Interphase Forward Sonars and offers recreational and commercial mariners a high level of technical sales and service expertise.

Richard Chapman, Managing Director of Coursemaster Autopilots commented "I am delighted at the outcome of our meetings during METS last week. The addition of our Australian-manufactured pilots fit perfectly into Globe Electronics existing portfolio of marine electronics and ensures that existing Coursemaster Autopilots' customers will be well supported in France."

Pierre Jean Jannin, Business Development Manager for Globe Electronics SAS, noted "We have immediate requirements for the Coursemaster Autopilot range here in France, especially the CM85i autopilot which is ideal for the French retro-fit market."

Coursemaster Autopilots have been manufactured in Sydney Australia for over 35 years and the company is one of the founding members of the Australian International Marine Export Group (AIMEX). [www.aimex.asn.au](http://www.aimex.asn.au)
